

SUMMARY OF THE INFORMATION FROM THE INTERNAL PROTOCOL CONTAINING MEASURES TO CONTRAST AND CONTROL THE SPREAD OF COVID-19

FOR OUR BOARDERS

This note is addressed to the boarders to inform them about the existing prevention measures, with particular regard to the following rules to be observed by each and every one:

- stay at home/in your room and cannot enter the premises of the school if you have a temperature (over 37.5°C) or flu-like symptoms: call your family doctor and the health authority.
- inform the educator on duty immediately and/or the nurse if you have a temperature (over 37.5°C) or flu-like symptoms
- always wear a face mask, and wear it properly, covering your mouth and nose
- keep the correct distancing of at least one meter from other boarders and two meters from the educators.
- avoid gatherings in common areas and observe the room maximum capacity limits indicated on the notices at their entrance
- don't go to other boarders' rooms
- minimize the shared use of objects and equipment and in case it can't be avoided, sanitize your hands before and just after their use
- support the school staff (cleaners) to ensure the maximum airing of your room
- keep your room clean and tidy to facilitate the daily sanitization by the cleaners
- observe the rules of hand hygiene and behave correctly as far as hygiene is concerned

- sanitize your hands or wash them carefully with soap and water after using the bathroom
- strictly maintain the shifts in the canteen as well as the place assigned to you at the beginning of the year
- wash your hands before meals
- avoid handshakes and hugs
- comply with the educators' indications regarding schedules and leaves.

On all the Convitto premises there are hand sanitizer dispensers to be used by all internal staff and pupils/boarders as well as other incoming people.

Finally, remember that washing your hands frequently and thoroughly with water and soap is just as efficient as hand sanitizer.
